

STAINSHIELD

50 years in stain & protection

PRODUCT SPECIFICATION SHEET

Stainshield Protector (Solvent Based) with Built-In Allergysield

A high concentrate solvent based Fluorocarbon Protector formulated to resist staining, soiling & wear on carpets, upholstery and fine fabrics including water-sensitive items

Total Hygiene with Allergysield by Sanitized will bind to the fibre with an anti-microbial finish that eliminates the nutrition chain so that household dust mites, other microorganisms and their resulting bacteria are unable to settle

Application

Only apply to new or freshly cleaned items & free of detergent residue. Apply only through approved spray units using T jets 8002 for carpets & 8001 for upholstery, fabrics & soft furnishings

Spray evenly from 12 inches away from surface areas and at least 35psi.

Coverage

Carpets 1 Litre to cover approximately 14-16 m²

A double application 1-2 minutes apart is recommended for Grade 4 carpets +

Upholstery 1 Litre to cover approximately 28-30 m²
