

TEX-GUARD

The Future of Stain & Wear Protection

WHY TREAT YOUR CARPETS, RUGS & FURNISHING FABRICS WITH TEX-GUARD TEXTILE PROTECTOR?

A PREMIUM ECO-FRIENDLY STAIN & WEAR PROTECTIVE TREATMENT CONTAINING NO PFAS

- 100% environmentally safe (Enviroseal approved), Non-Toxic, Non-Allergenic and Biodegradable
- A highly effective water-based alternative to traditional fluorocarbon protectors.
- Lasts longer & more resilient to hot spillages
- Provides additional resistance to wear on all fabrics.
- Provides an invisible breathable protective coating around protected fabrics to repel dirt & spillages
- Suitable for most fabrics & fine leathers including Wool, Nylon, Silk, Fine Cotton, Satin, Velvet etc.

Safeguard your most prized possessions with Tex-Guard Textile Protector.

HOW LONG DOES THE PROTECTION LAST FOR?

- Depending on traffic/use of a treated items, TexGuard has a shelf life anywhere from 2-3 years++ before we would recommend having the item re-treated.
- Any hot water extraction cleaning process will likely erode or adversely affect the stain protection also requiring a re-treatment.
- Cold-lukewarm water and vacuum cleaning will not.

STAINSHIELD
50 years in stain & protection

STAINSHIELD

50 years in stain & protection

Why Stainshield?

- Stainshield Protectors have the highest active content to ensure the best protection
- Chemical additive ensures deep penetration and protection to even the thickest and most absorbent of rugs, carpets & furnishings
- Protection will ensure items are significantly easier to clean in the event of accidents
- Will not change the look, smell, colour or characteristics of even the finest furnishings

Protect your most prized possessions

Tex-Guard Textile Protector. The Future of Stain & Wear Protection

Stain Protection is not a guarantee but ensures you are the best prepared for any kind of accident, even those that may go unnoticed for a few days

Spillages can usually be blotted up with even when a spillage penetrates the pile subsequent cleaning is easier, quicker & more efficient
