

STAINSHIELD

50 years in stain & protection

PRODUCT SPECIFICATION SHEET

Stainshield Wool Safe Pre Spray

A high concentrate strength pre spray cleaner for wool, wool mix, nylon and other like for like pH sensitive carpets, rugs & furnishing fabrics that are wet-cleanable. An advanced formula to a standard pre-spotter or traffic lane cleaner that has a very mild pH but with a high active cleaning content to tackle oily and greasy soils on more sensitive fabrics before any extraction rinsing process.

Instructions

Apply through recommended approved spray units using T Jets 8001.5 for carpets and 8001 for fabrics. Spray evenly 10-12 inches away from surface areas at least 35psi. Use a pile or upholstery brush and white towel to further disturb any heavily soiled areas.

Follow up with extraction cleaning process before the pre-treated areas have had time to dry

Precautions

Follow manufacturers instructions at all times. Protect from freezing. Persistent contact may result in mild skin irritation. Wash with cold water
